

Lisa Nehring | Masterclass & Workshop Catalog

About Lisa Nehring

Lisa Nehring has 1 husband, 2 graduate degrees, 5 kids, and a black belt in homeschooling. She wrote a Master's thesis on *Why Parents Homeschool*, which included the History of Education in America. A 30-year veteran of homeschooling, Lisa is passionate about equipping parents with the tools they need to guide their families True North.

Lisa is the founder and director of True North Academy, which offers 2nd–12th grade live online and self-paced classes, as well as a cutting-edge Dual Degree Program where students can earn both a high school diploma and an accredited Bachelor's Degree concurrently. TNA also provides eBooks, testing, advising, workshops, and more!

Lisa also leads It's Not That Hard to Homeschool, where she podcasts, blogs, reviews curriculum, and offers the community and encouragement parents need to homeschool with confidence and clarity.

Masterclass: The Future of Work

Careers That Don't Exist Yet — And How to Prepare for Them Now

♦ *Equip your kids with future-ready skills for a world shaped by AI, automation, and digital disruption.*

Description: The world is changing fast—and the future your kids are headed into may look nothing like the one you grew up in. Self-driving cars, remote teams, AI assistants, digital currencies, global freelance markets... how do you prepare your kids for jobs that haven't even been invented yet? In this visionary, practical, and highly engaging masterclass, Lisa Nehring breaks down the trends, tools, and mindset shifts you need to future-proof your homeschool and raise kids who are ready for anything.

How to Prepare Your Kids for the 4th Industrial Revolution & the 5 Emerging Economies

♦ *Discover the trends shaping your child's future and how to equip them now.*

Description: Is your homeschool preparing your kids for the world they're actually going to live in? In this forward-thinking and action-packed masterclass, veteran educator and alternative education strategist Lisa Nehring dives deep into the 4th Industrial Revolution—where AI, automation, and digital disruption are rewriting the rules of work, education, and life. You'll learn how to equip your teens with the skills, mindset, and strategies they need not just to survive—but to thrive—in a world that's constantly changing. Plus, we'll explore the 5 emerging

economies your kids need to understand—not just as global markets, but as cultural and career-shaping forces.

The College Dilemma: Rising Costs, Fewer Options, and a Better Path Forward

- ◆ *Rethink the traditional path and explore smarter alternatives to the modern college experience.*

Description: Ah, college—the so-called "golden ticket" that's starting to look a little tarnished. With skyrocketing tuition, schools closing left and right, and campuses that sometimes feel more like social clubs than academic institutions, it's no wonder parents and teens are rethinking the whole thing. Wouldn't it be nice if there was a reasonably priced alternative that didn't include dorm drama and the need to sell a kidney to pay tuition? In this session, we'll explore flexible, affordable, and academically solid paths to real-world success.

Design the Education & Life Your Teen Deserves

2 Powerful Tools to Personalize Your Homeschool Journey with Confidence

- ◆ *Use the Student Learning Profile and Personalized Learning Plan to map out your teen's success.*

Description: In this inspiring and practical masterclass, Lisa Nehring equips you with two transformational tools—the Student Learning Profile and the Personalized Learning Plan—to help you design an education that fits your teen, not the system. Whether you're preparing for high school, planning for post-grad, or just trying to make sense of the path ahead, you'll leave with clarity, confidence, and a custom roadmap to help your teen thrive.

Credits, Transcripts and Tests, Oh My!

- ◆ *Demystify the high school years with practical tools and a sense of humor.*

Description: High school homeschooling—where the stakes feel higher, and the coffee needs to be stronger. If the words "credits," "transcripts," and "tests" make you break out in a cold sweat, you're not alone. But don't worry, I've got you covered! Learn how to track credits without turning into a spreadsheet zombie, create transcripts that make colleges say "Yes, please!" and navigate testing without losing your cool. We'll also talk about balancing academics with life skills, extracurriculars, and figuring out what your teen really needs to thrive after graduation.

It's Not That Hard to Homeschool High School

Graduate with Confidence. Parent with Peace of Mind.

- ◆ *Master the big picture and the small details of homeschooling high school.*

Description: Homeschooling high school might sound intimidating—but it doesn't have to be. Whether you're standing at the edge of 9th grade wondering where to even start, or knee-deep in transcripts, credits, and college questions—this guide will help you cut through the overwhelm and confidently lead your teen through high school at home. Lisa Nehring, homeschool veteran, transcript ninja, and dual-degree program director, shows you how to homeschool high school with purpose, clarity, and way less stress than you're probably imagining.

Entrepreneurship: Don't Leave Home Without It!

- ◆ *Help your kids build confidence, creativity, and real-world problem-solving skills through entrepreneurship.*

Description: In this session, we'll explore how to give your kids real-world skills like problem-solving, critical thinking, and adaptability—essential traits for navigating an unpredictable future. From starting a side hustle to managing finances and thinking like a CEO, we'll cover practical ways to nurture an entrepreneurial mindset. Whether they dream of launching their own business, freelancing across the globe, or just thriving in the gig economy, this guide will equip your kids to succeed in a world where opportunity favors the bold and the prepared.

Homeschooling Middle School: Tackling the Weird and Wonderful Years

- ◆ *Understand the mystery of the middle school brain and teach with confidence, humor, and flexibility.*

Description: Let's be real—middle schoolers are weird. One minute they're arguing like a lawyer about bedtime; the next, they're crying because their sandwich was "cut wrong." Homeschooling this age is a unique challenge—and a total blast if you know what you're doing. In this session, we'll dive into the mystery of the middle school brain (hint: hormones!) and uncover practical ways to motivate a kid who's totally over it. We'll tackle what they actually need to learn—academics, life skills, and maybe just a smidge of how to fold their laundry without drama. Plus, I'll share tips on building independence, managing moods, and keeping your sanity.

It's Not That Hard to Homeschool K-6th

Confidence for You. Curiosity for Them.

- ◆ *Start strong with simple, doable strategies for early learners.*

Description: Think homeschooling elementary has to mean endless Pinterest projects, rigid

schedules, or being a certified supermom? Think again. This guide is your stress-free starting point for homeschooling grades K–6. Whether you're pulling your child out of public school, starting from scratch, or just need a clear plan that won't burn you out by October, we've got you covered. Veteran homeschool mom and mentor Lisa Nehring breaks it all down with practical tips, realistic routines, and encouraging insights that will help you build a joyful foundation of learning at home.
